Why

It's all about delivering quality health care to Ecuador's rural communities and celebrating 20 years of successful efforts bringing health care to more than 200,000 Ecuadorian patients in need. With this ride, The Andean Health Cycling Team (AHCT) aims to raise \$1.2 million to launch the next 20 years for Andean Health & Development to operate Hesburgh Hospital as a central component of its model for providing quality care today and teaching the health care leaders of tomorrow.

Who

Led by Michael Heisler, MD, MPH, past chair of AHD's Advisory Board, and Dave Cutler, long-time AHD supporter, the members of the AHCT include business men and women, parents, grandparents, doctors, nurses, and students. Together, they are dedicated to raise the funds needed to make Hesburgh Hospital the self-sustaining teaching hospital rural Ecuador desperately needs.

Sponsors

AHCT seeks the good will of companies, foundations and individuals to support its fundraising goal of \$1.2 million. Sponsors are appreciated at every level. Please contact Laura Dries (info@andeanhealth.org) to learn how to make your contribution. Donations to AHD are tax-exempt under Section 501(c)3. Tax ID 39-109174.
